

## The Siemens Graduate Program

Our commitment to future leaders doesn't stop at the undergraduate level. If you're a masters-prepared candidate seeking your opportunity to rise to the top of your profession, one of these opportunities could be the answer you're looking for:

Interested in pursuing a management career in either a general or technical area? This two-year rotational program is ideal for you. It offers three challenging eight-month assignments along with extensive classroom training.

As a participant, you'll rotate through at least two different functions (e.g., Purchasing, Sales, Marketing) within the same business (e.g., Healthcare, Energy, Industry), including one assignment abroad. It's an excellent opportunity to participate in international and interdisciplinary project teams, and establish a global network that will be there for you throughout your career.

Individual mentors will provide guidance and advice to ensure best potential development. You'll also benefit from a comprehensive training program - including both management training and function-specific seminars- that will position you well for a rewarding future.

### Who we look for:

**Minimum GPA :** 3.5 or higher; graduation date must be no more than 6 months prior to your start date.

**Education** – Master's degree in an Engineering (specifically Electrical Engineering, Industrial Engineering, Mechanical Engineering, Computer Engineering or Information Technology) or Business/MBA discipline;

**Work experience:** 1-3 years of relevant work experience or internships in related discipline

**International experience:** 3-6 months study or living abroad experience

### Locations:
