## Acknowledgments and Thanks

To Generous People:

Frank Ballew of H & H Associates. Thank you for your help and your stories!

Staff at Florida Heat Pump: Thank you for answering all of my emails and for your design advice.

Trane TRACE CDS Support Staff. Thank you for spending so much time with me on my models.

To My Teachers,

Dr. Srebric, Thank you for your help and advice! Your ideas and values inspire me to be a better person, and maybe even a better engineer!

Dr. Freihaut, Thank you for your help and stories! Your guidance makes us want to tackle the hardest problems, and your stories make us happy to be engineers.

Moses, Thank you for supporting us so much. Thank you for answering every question I've asked in five years, and for working so hard to make our lives better (like getting rid of comp-sci, an excellent choice)

To My "Bosses"

Thank you to everyone at the Buro Happold office for your constant and dedicated support. Thank you for providing such a wonderful learning environment, and for knowing how to have so much fun and work hard!

To My Friends and Classmates

Jess and Yulien, thank you for working with me, I'm so sad that the time we've had is over.

There's so many more problems to solve and beers to drink! Flack and Kurtz is a very lucky company. And Jess, we'd better go rock climbing next year!! Yulien, the West Coast is not far enough to get away from us, you'll be getting visitors.

Jayme, thank you for your friendship and help! We've had so much fun, and so many interesting things to stress out about. The best is yet to come! ;-)

All the mechanicals, what an awesome group of people! I have only tried to be as supportive and as good of a friend as you have all been to me.

To the AEEEE's! Thank you Bryan and Lulu, Tim and Caitlin for your help and friendship!

To My Parents

Thank you for your supporting me through all 19 years of school! I know it hasn't always been easy. Every day I realize more and more how lucky I am to have such wonderful parents, who love me, support me, have great advice, and work hard to help me have a good life. I can't imagine where I'd be without you.
