### **Technical Assignment #3: Schematic Design**

### **Executive Summary**

The schematic design technical assignment was an exercise to brainstorm design ideas for a new lighting design of Harris Theater for Music and Dance. The presentation begins with a building overview and then moves into the spaces chosen for redesign. There is an overall theme carried over between the spaces which is illustrated with sketches and text. This assignment was presented at Lutron for lighting design professionals for to receive feedback to improve our design ideas.
