

TABLE OF CONTENTS

Abstract.....	2
Table of Contents.....	3-4
Acknowledgements.....	5
Executive Summary.....	6
Project Overview	7-16
Project Team.....	7
Client Information.....	7
Project Delivery Method.....	9
Site Plan and Existing Conditions.....	10
Building Systems Summary.....	12
Project Schedule.....	13
Project Cost.....	16
Construction Cost Escalation Analysis - Construction Management Depth	17-21
Problem.....	17
Solution.....	17
Methodology.....	17
Resources & Tools.....	17
Market Conditions.....	18
Current Strategies.....	19
Conclusion & Recommendation.....	21
Solar Shading Breadth - Mechanical Breadth	22-31
Problem.....	22
Solution.....	22
Methodology.....	22
Resources & Tools.....	23
Existing Conditions.....	23
Mechanical Impacts.....	25
Structural Impacts.....	27
Cost Analysis.....	29
Conclusion & Recommendation.....	31

Overhead Pedestrian Bridge Illumination - Lighting/Electrical Breadth	32-3
Problem.....	32
Solution.....	32
Methodology.....	32
Resources & Tools.....	33
Lighting Impacts.....	33
Calculation Points.....	38
Electrical Impacts.....	39
Conclusion & Recommendation.....	42
Additional Possible Analysis - Unitized Glazing System.....	43
Summary & Conclusions.....	50
Appendix A - Detailed Project Schedule.....	51
Appendix B - Interview Material.....	57
Appendix C - Monthly Solar Heat Gain Tables.....	69
Appendix D - Luminaire Cut Sheets.....	74
