

Jonathan Ebersole  
 Structural Option  
 Dr. Hanagan  
 Oklahoma University Children’s Medical Office Building  
 Oklahoma City, Oklahoma  
 2 April 2014

## Presentation Outline

<b>I.</b>	<b>Introduction</b>	
	a. Myself .....	1
	b. Building statistics and project team.....	1
	c. Existing structure .....	1
<b>II.</b>	<b>Proposal</b>	
	a. Introduce problem .....	1
	b. Introduce depth studies.....	2
	c. Introduce breadth studies .....	2
<b>III.</b>	<b>Structural Depth</b>	
	a. Ram model .....	2
	b. Composite steel redesign .....	2
	c. Lateral system redesign .....	2
	d. Redesign comparison.....	1
<b>IV.</b>	<b>Construction Breadth</b>	
	a. Cost comparison .....	1
	b. Schedule comparison.....	1
<b>V.</b>	<b>Architectural Breadth</b>	
	a. Plant selection.....	1
	b. Material selection .....	2
	c. Impact on structural system .....	1
<b>VI.</b>	<b>Conclusion</b>	
	a. Reevaluate goals and comment on them .....	2
	b. Acknowledgements .....	1
	c. Questions .....	1
<b>VII.</b>	<b>Appendix .....</b>	<b>as required</b>

Estimated # of slides: 25 slides + appendix
