

HEIFER INTERNATIONAL CENTER

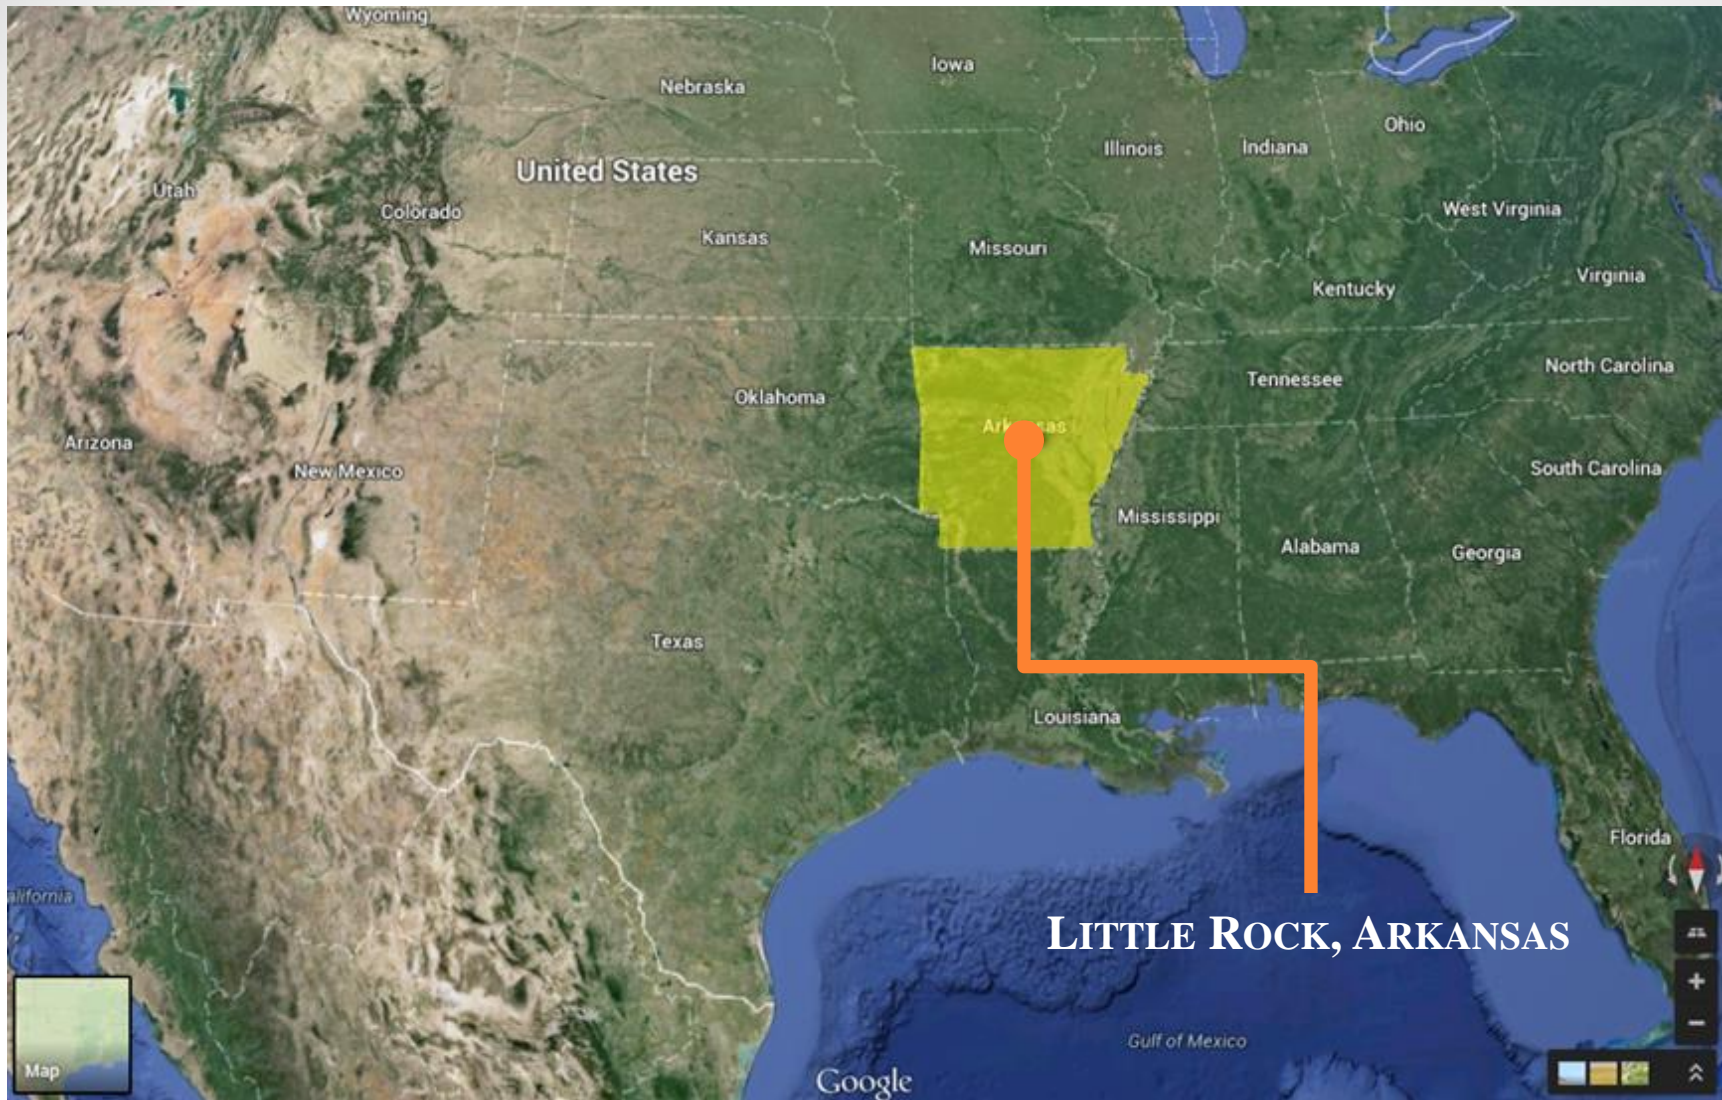

LITTLE ROCK, ARKANSAS

TECHNICAL REPORT IV

SIKANDAR PORTER-GILL

ADVISOR: DR. THOMAS BOOTHBY

SITE AND LOCATION

DOWNTOWN LITTLE ROCK

WILLIAM J CLINTON PRESIDENTIAL
LIBRARY & MUSEUM

HEIFER INTERNATIONAL CENTER

LITTLE ROCK, ARKANSAS

HEIFER INTERNATIONAL CENTER

| | |
|---------------------------|---------------------------------|
| Height | 65'-0" |
| Stories | 4 |
| Square Footage | 98,000 GSF |
| Construction Dates | February 2004 – January 2006 |
| Approximate Cost | \$18 million |
| Project Delivery | Construction Management at Risk |
| USGBC Rating | LEED Platinum |

LATERAL FORCE RESISTING SYSTEM

- Composite Lateral System
 - Steel Plate Shear Wall
 - CMU Masonry Wall

④ WEST SHEAR WALL ELEVATION AT MECH. ROOM 2 ALONG GRID 20
SCALE: 3/8"=1'-0"

SECTION OF SPSW

PLAN OF SPSW

⑤ SHEAR WALL DETAIL
SCALE: 1/8"=1'-0"

⑥ SHEAR WALL PLAN DETAIL AT COLUMN
SCALE: 3/8"=1'-0"

ETABS MODEL

- Lateral Force Resisting System
 - Steel Plate Shear Wall

ETABS MODEL

- Lateral Force Resisting System
 - Steel Plate Shear Wall

ETABS MODEL

- Lateral Force Resisting System
 - Steel Plate Shear Wall
 - Converted to equivalent concrete shear wall

SEISMIC LOADING

- Reduction of loading

CRITICAL LFRS ELEMENT

ENERGY/VIRTUAL WORK DIAGRAM

[ALTERNATIVE VIEW]

- Seismic | X-Direction Loading

Note: This is not a controlling load case for the LFRS

ADEQUACY OF LFRS

- **SEISMIC STORY DRIFT**

Pass!

- **WIND BUILDING DRIFT**

Pass!

- **SHEAR CAPACITY**

Pass!

LATERAL FORCE RESISTING
SYSTEM ADEQUATE

THANK YOU

ADEQUACY OF LFRS

- **SHEAR CAPACITY**

- $\phi V_n = \phi 0.42 F_y t_w L_{cf} \sin(2\alpha)$

ADEQUACY OF LFRS

- **DEFLECTION CHECK**
 - Joint deflections of SPSW LFRS were measured using ETABS
 - Each value passed
