Acknowledgments:

I would like to thank Don Taylor of DW Taylor Architects and associates, for being so helpful throughout the whole project. I would also like to thank Jim Diepold of WCMB for helping me with all of my questions with the foundations. I would like to let the AE faculty know how much I greatly appreciate all of their help and guidance, not only through this project, but through all the years spent here; especially Dr. Hanagan, Dr. Geschwinder, Professor Parfitt, and Dr. Boothby. I would also like to thank all of my friends and family who put up with a lot through all my years of study.
