

February 2006

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
			1	2	3	4
5	6	7	8	9	10	11
	Complete sizing of all framing members for gravity loads					
12	13	14	15	16	17	18
	Lateral Load calculations to find which controls		Lateral analysis for the East Wing	E-W frames		
19	20	21	22	23	24	25
	Lateral analysis of East Wing N-S frames		Lateral analysis for the West Wing E-W frames		Lateral analysis for the West Wing N-S frames	
26	27	28	Begin Breadth Study #1			
	Lateral analysis of West Wing N-S frames					

Currently I have just finished up with the lateral analysis for both wings of the building for frames in both directions. I should have started my breadth study but I have not yet. I will have to play catch up once I get back from spring break. Hopefully by then I'll have caught my second wind and be ready to turn it up a notch.
