

TABLE OF CONTENTS

| | |
|---|-----------|
| Executive Summary | 3 |
| Introduction and Building Overview | 5 |
| Current Building Design Review | 6 |
| Structural System | 6 |
| Gravity System | |
| Lateral System | |
| Building Architecture | 9 |
| Floorplan | |
| Façade | |
| Lighting and Electrical | 9 |
| Plumbing | 9 |
| Fire Protection | 10 |
| Foundation | 10 |
| Proposal and Scope of Design | 11 |
| Problem Statement | 11 |
| Design Approach | 11 |
| Assumptions | 11 |
| Methods of Evaluation | 12 |
| Depth Analysis: Concrete Design | 13 |
| Two-Way Floor Slab | 13 |
| Alternatives | |
| Procedure | |
| Findings, Direct Design Method | |
| Findings, ADOSS Analysis | |
| Superimposed Dead Loads | |
| Undulating Parking Structure | |
| Final Design Summary | |
| Lateral System Design | 21 |
| Alternatives | |
| Procedure | |
| Analysis Findings | |
| Column Design | 24 |
| Procedure | |
| Analysis Findings | |
| Effects on Foundation System | 26 |
| Procedure | |
| Analysis Findings | |
| Final Concrete Designs | 27 |

TABLE OF CONTENTS, CONTINUED

| | |
|---|-----------|
| Breadth Analysis 1: Architecture of Concrete System | 30 |
| Floorplan | 30 |
| Existing Architecture | |
| Problem | |
| Proposed Solutions | |
| Exterior Façade | 36 |
| Existing Architecture | |
| Problem | |
| Proposed Solutions | |
| Breadth Analysis 2: Construction Management Comparison | 38 |
| Basis of Comparison | 38 |
| Cost and Schedule Comparison | 38 |
| Additional Construction Considerations for the Washington DC Area | 39 |
| Cost Adjustments in Northern Virginia | |
| Lead Times | |
| Supply and Demand | |
| Weather Conditions and Schedule | |
| Breadth Analysis 3: Integration of a Green Roof | 41 |
| Overview of Green Roof Types. | 41 |
| Feasibility of a Green Roof | 41 |
| Selection of a Green Roof | |
| Structural Considerations | |
| Mechanical Considerations | |
| Acoustic Considerations | |
| Architectural Considerations | |
| Cost Considerations | |
| Conclusions and Recommendations | 45 |
| Design Summary | 45 |
| Evaluation of the Concrete System | 46 |
| Evaluation of the Composite Steel System | 47 |
| Final Recommendations | 48 |
| Tables and Figures | 49 |
| References | 51 |
| Acknowledgments | 52 |
| Appendix A: Load Calculations | 53 |
| Appendix B: Concrete Floor System Calculations. | 56 |
| Appendix C: Takeoff Info and Means References. | 53 |
| Appendix D: Hand Steel Calculations. | 53 |
