

Acknowledgements

TLC Engineering

For providing the plans for my building and answering all my questions throughout the year.

Dr. Thomas Boothby

For carefully evaluating and providing input during all the stages of this project.

Dr. Maria López de Murphy

For all the time devoted to helping me develop a better understanding of post-tensioned systems.

Dr. Moses Ling

For all the time devoted to helping me develop a better understanding of mechanical systems.

Entire AE Faculty

For helping me grow through study and research.

My Wife, Franchesca

For her tireless love and confidence in me.

My Family and Friends

For their continuous support throughout my career at Penn State.
