

PRESENTATION OUTLINE

Introduction

- Name
- Building Picture

Presentation Outline

- Project Overview
- Building Envelope Analysis
 - Structural Connection
 - Air Infiltration
- Schedule and Cost
- Material Escalation Analysis
- Summary and Conclusion

Project Overview

- Academic Facility - Coppin State University
- Health and Human Services
- 5 Stories
- Delivery Method
- Dates of Construction

Architectural Features

- Materials
- Room Breakdown
- First Building on South Campus

Building Envelope

- Description of Unitized System

Structural Connection

- Gravity Load allows change in skin connection
- Wind Clip Design

Air Infiltration

- Change with Unitized System

Material Escalation

- Results of Survey
- Tool to help manage risk

Summary and Conclusion

- Summarize points
- Questions/Comments
